

# ART OF VISION

## A Foolproof Mural Program

Art – it isn't just for artists anymore! This foolproof creative project includes no drawing, painting or any artsy slight of hand. Filled with conceptual and spatial decision-making (and a lot of glue or tape) this is a fun vehicle for team bonding and for practicing team skills such as collaboration, visioning and consensus decision-making.

Does your team need to “brush up” on listening skills? Does intra-departmental communication sometimes fall into the black hole of ‘never happened’? Is there

ever resistance between departments, or does the team have a hard time “visualizing” the “Big Picture” on projects?

In this exercise, small teams work together on paper or canvas, using a variety of unique supplies and found objects. The goal? To create a statement of the team vision. But now here is the rub....each team's small canvas must be designed with a larger all-teams-in-one creation in mind. This results in one work of art and one unified message, with all teams communicating to ensure success.

### Details for Art of Vision:

Minimum/Maximum Group Size:  
6 - hundreds

Program Length:  
90 minutes to 2 hours approxi.

Location:  
This program is extremely flexible and can be done in virtually any conference room or meeting space.\*

\*Room should be private.
